JUNE 5TH, 2023

## WELCOME!

On behalf of the DSF Board of Directors, I would like to welcome all of you to the 32nd Annual Diplomatic Security Foundation Mike Considine Charity Golf Outing.

Your participation in this event, and contributions to the Foundation, are essential in our efforts to help members and friends of the DS global community when tragedies strike, many of whom have few other options for assistance. In 2022, the Foundation gifted more than \$90K in grants to our security colleagues both domestic and overseas. This current year, we were able to send \$42K to Mission Turkey to assist members of the Local Guard Forces who were displaced from their homes as a result of the devastating earthquakes in February. And more recently we have been able to assist our colleagues in Sudan as it faces an unstable political crisis. We wouldn't be able to provide these grants if it wasn't for the support of our donors, sponsors and golfers such as yourself.

This event, if like those in the recent past, will bring in more than \$200,000 for DSF. We owe a special thanks to our corporate sponsors whose generous contributions add so significantly to the outing's success. We are especially grateful to Pat Donovan at Chevron, Ronnie Catipon & Paul Davies at Adobe, and Cam Burks at Roku for their steadfast and generous support of DSF. Thanks too to all our individual and group donors, as well as those who have contributed the wonderful and unique prizes for our raffle. Lastly, we are especially grateful for all of our volunteers, without whom we literally could not have this great event.

All of us, the DSF Board, staff, and volunteers hope you make the most of today's relaxed atmosphere and this delightful setting for our golf outing. Put your regular responsibilities aside for a few hours, play a great game of golf, enjoy the company of colleagues and friends, and appreciate that you are also helping those in need.

With thanks from the entire DSF Board of Directors,

A handwritten signature in blue ink that reads "Todd L. Brown".

Todd Brown,  
DSF President

## ABOUT DSF

Since 1995, the Diplomatic Security Foundation has provided over \$1,500,000 in grants and scholarships to those in our world-wide DS family.

[WWW.DSFOUNDATION.ORG](http://www.dsfoundation.org)

### OUR MISSION

The Diplomatic Security Foundation (DSF) provides timely financial support and charitable contributions to members, and their immediate family, of the US Department of State's Bureau of Diplomatic Security and colleagues in the law enforcement and US foreign affairs community.

### ABOUT DSF

DSF was founded in 1995, as a charitable, non-profit organization. DSF has provided support far and wide over the years to families of DS Special Agents, local and foreign police professionals, and others in the DS world-wide "family". Contributions are given to families in the event of death, illness, catastrophic disasters, and other extreme circumstances. All grants given by DSF are considered gifts and do not require repayment. No membership is required to receive assistance. Since our inception, DSF has provided more than \$1,225,000 in grants to those requiring assistance due to hardship or crisis, and an additional \$275,000 in scholarships. A complete list of the grants we've made this year is available on the next page and on our website: [www.dsfoundation.org](http://www.dsfoundation.org).

### HOW YOU CAN HELP

DSF relies solely on the support of charitable donations and does not receive any funding from a government entity.

- > To make your gift today, please visit us at [www.dsfoundation.org/donate](http://www.dsfoundation.org/donate)
- > DSF participates in the Combined Federal Campaign. Our CFC number is 96262.
- > Donations can also be made via Facebook, PayPal, Venmo, Zelle

# GRANTS

The Diplomatic Security Foundation is pleased to demonstrate how your contributions have helped support those in the Diplomatic Security worldwide family during times of need. DSF donations are unrestricted gifts, requiring no re-payment. Anyone from the extended global DS “family” may be considered for a donation, per review by the DSF Board of Directors, which is composed of active, retired and former DS personnel.

## **2023 GRANTS: \$99,900**

(as of 5/16/23)

\$12,000 to six DS employees at US Embassy Khartoum (Sudan) who recently evacuated on ordered departure. The military-assisted departure required the staff to fly out with only a backpack due to the rapidly deteriorating security situation and had to leave most of their personal items.

\$3,750 to a Marine Security Guard at US Embassy Vientiane (Laos) to assist with uninsured medical and funeral costs for his father who recently passed away.

\$1,500 to the family of a local guard at US Consulate Karachi (Pakistan). He had worked for the Consulate for 17 years. He leaves behind a wife and an 8-year-old daughter.

\$2,000 to the family of a local guard at US Embassy Havana (Cuba) who died suddenly of a brain aneurysm. He had been a member of the LGF for the past 4 years, but prior to that he had been a gardener for several embassy families. He was considered an outstanding employee by RSO. He died as he was leaving his home to go to work. He was single parent to his teenage son.

\$5,000 to a DS employee at FASTC to help with uninsured medical and funeral costs for his wife who recently passed away from cancer.

\$42,600 to 142 members of US Mission Turkey to help with the cost of temporary lodging, food, diapers, and winter clothing for those affected by the February 6, 2023 earthquakes.

\$3,800 to a member of the US Embassy Mexico City police force to assist with costs associated with spouse’s illness and death from Covid.

\$5,000 to a former guard at US Embassy New Delhi (India) for medical costs associated with a recent health issue.

\$3,000 for a local guard at US Embassy Kuala Lumpur (Malaysia) for costs associated with spouse’s illness and surgery.

\$6,000 to three local guards from US Embassy Eritrea (East Africa) to help with the relocation costs.

\$3,500 to a local guard at US Embassy Cairo (Egypt) to help with costs of a new prosthetic.

\$1,750 to the family of a guard from US Embassy Maseru (Lesotho) who was murdered.

## **Actions with purpose. Results that matter.**

We are proud to support the Diplomatic Security Foundation and its honorable work helping families of courageous U.S. Department of State Workers.

## RULES FOR TODAY'S EVENT

Today's tournament will be scored using Scramble: Captain's Choice Bogey Max.

Teams should use the Golf Genius app for scoring. If paper scorecards are used, turn in to Lansdowne staff for posting asap upon return to Club House.

USGA Rules will govern all play. Except that the ball may be moved one club length, but may not be moved from the rough into the fairway. Ties are settled by scorecard in accordance with USGA regulations. Yardages are measured to the center of the green.

The Golf Club at Lansdowne is a soft spike only facility.  
Please have your metal spikes changed prior to the shotgun start.

Please repair all ball marks, replace divots, and rake bunkers.

In the event of more than one winning putt during the putting contest, the prize (a gift card to the Lansdowne Pro Shop) will be divided evenly between the winners.

Mulligans and Toss cards may NOT be used on contest holes.  
A maximum of four mulligan per golfer.

Golf Pros: must start from Gold Tee.

# Zero Trust for Data Management

Koverse Data Platform (KDP) brings Zero Trust security to data to power the most demanding analytics, data science, and AI use cases

Security-conscious government organizations and highly regulated industries struggle with using complex and sensitive data.

## Koverse Data Platform

KDP is a security-first data platform that empowers organizations to use data to gain understanding and drive mission-impacting decisions and actions. It provides Zero Trust for data by enforcing attribute-based access controls (ABAC), allowing customers to safely work with their complex and sensitive data to power the most demanding analytics, data science, and AI use cases.

“Currently, many authorization models in the Federal Government focus on role-based access control (RBAC), which relies on static pre-defined roles that are assigned to users and determine their permissions within an organization. A Zero Trust architecture should incorporate more granularly and dynamically defined permissions, as attribute-based access control (ABAC) is designed to do.”

(Moving the U.S. Government Toward Zero Trust Cybersecurity Principles, White House Memorandum)

## Insight-Enabling Examples

- Provide data scientists access to a wide variety of data based on granular, multi-level security controls
- Consolidate information that is typically siloed across the enterprise
- Enable secure search and document discovery in seconds
- Create global transparency of the entire supplier network

### Single Platform for All Data

- Rapidly ingest, index, store, and secure all data including structured and unstructured, batch and continuously streaming, and classified and unclassified, from any source.
- Physically co-locate and logically separate data to simplify data management.
- Supports self-managed (on-premises) deployments on customer's hardware or cloud marketplace.

### Accelerate the Operational Use of AI

- Employ “late binding” of data with quick ingestion in its original form for superior fidelity.
- Enable the flexibility to apply context at the time of use to improve responsiveness.
- Rapidly build and evolve data use cases and enable use by other systems to avoid vendor lock.

### Bring Zero Trust to Data

- Provide Zero Trust for data by enforcing ABAC for every data access request.
- Protect data with a unified security model across the dataset and record level.
- Increase the value and use of all data, particularly of mixed sensitivities, while ensuring authorized data access only.

### Mission Agility Is Assured

- Enhance your quick reaction capabilities to optimize mission agility and performance.
- Make new data rapidly accessible without requiring ETL or data characterization.
- Integrate with your existing tools and applications including IdAM/ICAM/SSO systems.

## MANAGEMENT CONSULTING SERVICES

Founded in 2009, The Prospective Group (TPG) is a woman owned business (WOSB) and minority owned small business providing information technology (IT) and management consulting services. TPG is distinguished by its seamless ability to work collaboratively across organizations using highly adaptive Agile methods, putting customer interests first and ensuring substantial and lasting improvements to processes and the mission. We have a track record of achieving high levels of customer satisfaction resulting in multiple engagements with many clients in a global setting. We meet or exceed requirements and expectations at the management, stakeholder and end user perspectives. We approach our engagements as shared endeavors with rapid progress toward tangible interim goals and products that are continually refined over time.
